The Smart Brush tool is used for creating pixels and inserting them into various areas in an image. It works with any color mode and features a great selection of options, such as Blend If, Pattern and Radial gradients. This tool is great for drawing straight lines and is a good tool to use when you want a specific pixel to appear in an image. The Lasso tool is used to create and select shapes. When you use the Lasso tool, you can move the handles to create a continuous line or box. The tool is good for selecting entire areas of an image that contain a certain color, which is useful for photographs and editing. You can also use the Lasso tool to highlight details. The Lasso tool is used to select areas. The Gradient tool is similar to the Paint Bucket tool, which is used for filling objects with a specified color. The Gradient tool allows you to apply gradients or patterns, which are used to color objects or parts of the image. For example, you can change the colors in the background of an image to give it a vintage or special effect. It is a fast way to apply a gradient to a large area of an image. The Pen tool is used to draw shapes like an eraser. The Pen tool can be useful for drawing, creating bezier curves and resizing objects. You can also use the Pen tool for creating texture maps, which are areas that contain color effects for filling in objects. It works with any type of color mode. Text Brushes allow you to apply fonts to your work. Using fonts is a great way to give a finished piece of art a unique style. Photoshop comes with thousands of different styles and fonts that you can use to further stylize your artwork. What are Adobe Presets? An Adobe Preset is an object or type of art that will apply settings to an action to achieve a look that's ready for professional use. The Presets are each used for a different effect. You can use a preset to quickly and easily achieve a variety of looks for your artwork. The font stamps are the presets that apply a specific font to a document. It can be used to create fancy decorative types of text. Paint shop is the set of tools that will apply a color or texture map to an area of an image. It can be used to add color effects, like saturated colors, for example. The Poster Effect is a very
